

## “IN THEIR OWN WORDS”

### READ WHAT EUREKA GIRLS HAVE TO SAY ABOUT THE PROGRAM

“I have never had so much fun while learning how to do things that I never thought that I could do. I learned how to solve problems which has helped me a lot in school this year,”

“I’m returning to participate in Eureka this summer because last summer was so much fun. I learned a lot of things about math, architecture, and myself. I made a lot of friends and I loved the staff,”

“The computer classes really helped me in school this year. I never knew that I liked computers so much,”

“I loved the program and so did my mom. She said that she didn’t have to worry about me while she was at work. Instead of hanging out, I was having fun and learning. She said that it was a much better summer for both us because of Eureka,”

“I loved being part of the program. It made me feel that I could accomplish things that I never thought that I could,”

is a creative program for girls to learn how to express themselves as they explore teen girl issues, including relationships, healthy lifestyles, puberty and sexuality. Using role plays and hands-on group activities, we will also practice such life skills as assertiveness, stress management and conflict resolution.
